BEFORE RELATIONSHIPS

## BACKGROUND CHECK: **HIGH VOLUME SCREENING**

Our Global Verify portal makes it easy for clients to vet high volumes of people quickly and cost effectively. We work in all relevant languages, whether verifying a degree, searching social media or doing a comprehensive investigation.

Before executive hires and board appointments, corporations, search committees and executive search firms request verifications on the long list and comprehensive reports on finalists.

Before transactions, private equity firms, investment banks and other dealmakers request background checks on their counterparties, all over the globe.

We conduct Foreign Corrupt Practices Act and integrity due diligence on large volumes of potential joint venture partners, acquisition targets, agents, vendors, distributors and other third parties.
