

Information provides clarity.

Mintz Group helps investors make smarter decisions at every step—from raising capital to harvesting investments.

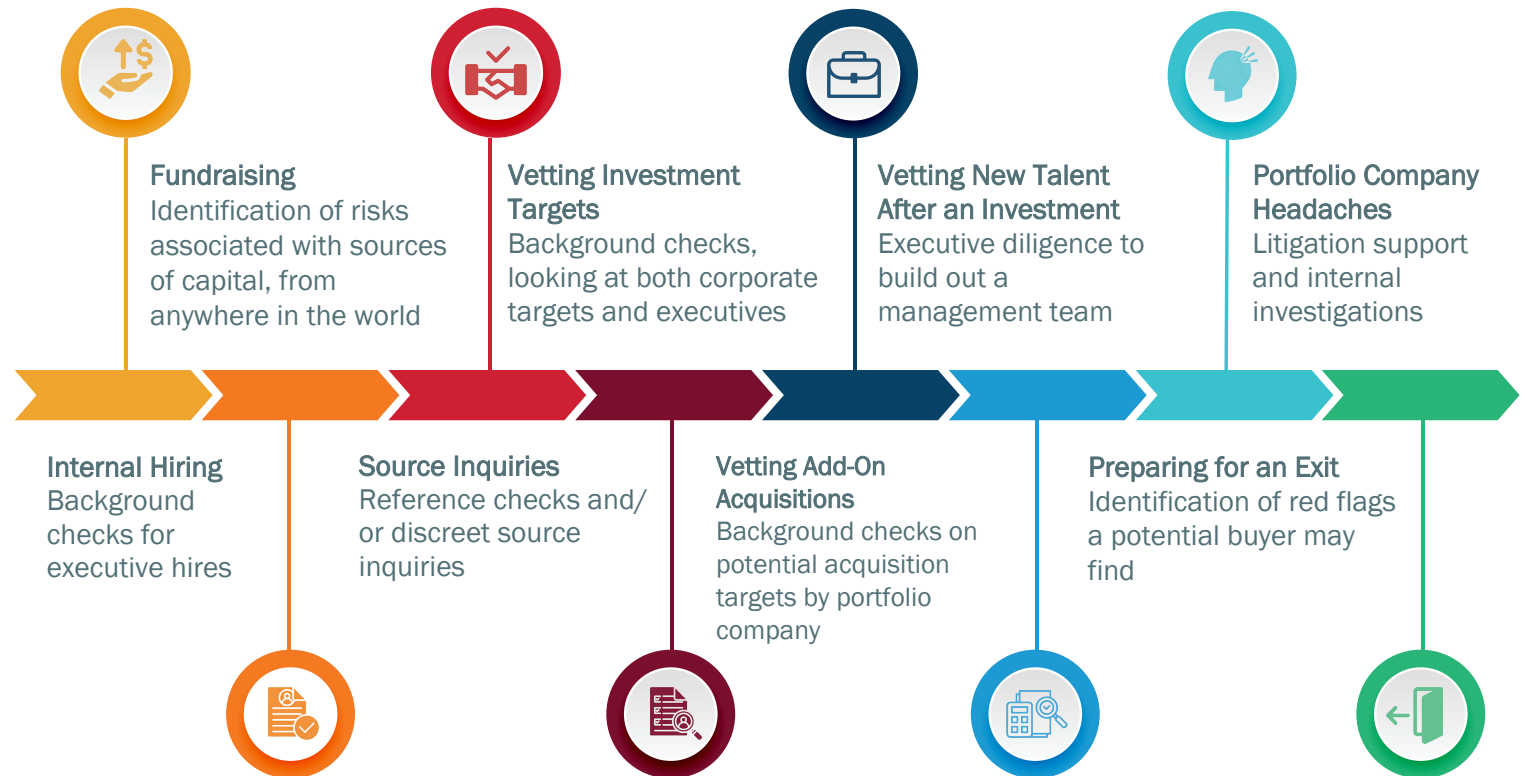

Clarity in a complex world

We keep pace with investors, which sometimes requires the highest-quality information in hours, not days.

Mintz Group verifies and/or uncovers:

- Undisclosed controversies and inconsistencies
- Background, reputation, and qualifications of individuals and entities
- Evidence that a sterling reputation is based on a proven track record—not simply taken at face value
