

Information provides clarity.

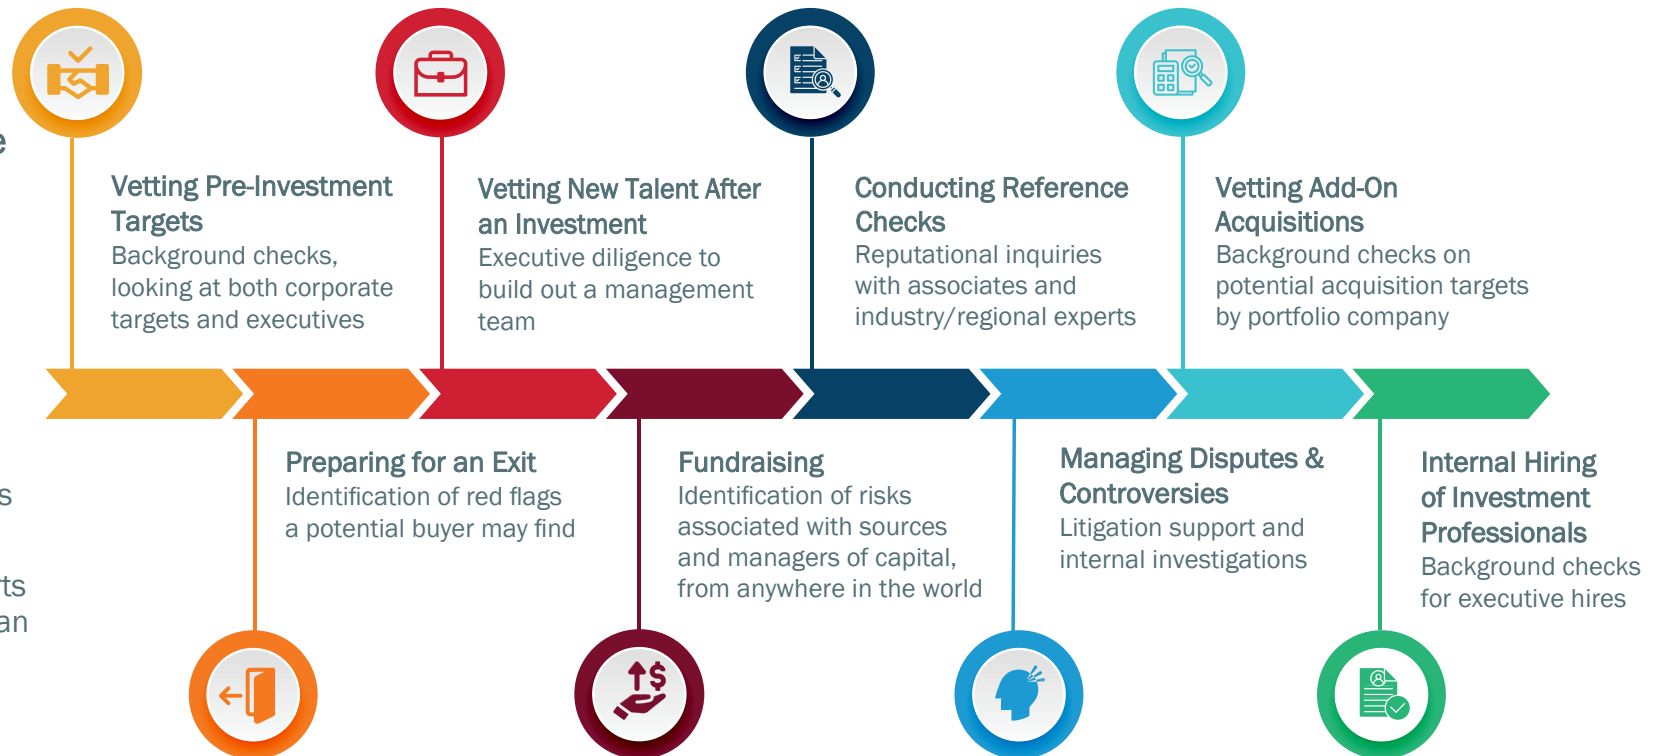

Clarity in a complex world

Mintz Group helps investors make smarter decisions at every step—from raising capital to preparing for exits.

We keep pace with investors, which sometimes requires the highest-quality information in hours, not days.

Mintz Group investigators:

- Uncover controversies and other reputational risks
- Verify individuals' stated backgrounds and qualifications—or spot inconsistencies
- Seek out evidence that supports a sterling reputation, rather than take it at face value
